Claim Notes

Claim number:	C-1434
Claimant:	Lisa Carter
Adjuster:	Christopher Wong

12-10-24 - Claim opened following report of a low-speed head-on collision at a resdiential intersection. Insured vehicle sustained front-end damage. Claimant reports neck and shoulder discomfort at scene and declined transport by ambulance. Claimant is not represented by counsel. Photos requested from both drivers.

12-19-24 - Spoke with claimant by phone. Claimant describes right shoulder pain radiating into the upper arm, worse with overhead reaching. Claimant has scheduled an evaluation with their primary care provider. Rqeuested medical authorization form and copies of any treatment records. Explained the claims process and that the claimant may take time to seek advice on their own.

12-21-24 - Reviewed scene photos and the driver statements. Both parties agree the vehicles were slowing at the time of impact and that airbags did not deploy. Damage estimate for the claimant vehicle received from the appraiser and forwarded to the file. Vehicle inspection set for later this week.

12-23-24 - Received preliimnary medical report from claimant's provider noting a right rotator cuff strain with limited range of motion. Imaging ordered to rule out tear. Claimant confirmed they have not yet missed work. Reminded claimant that they may consult an attorney at any time and that the company cannot provide legal advice.

12-28-24 - Imaging results reviewed. No fracture noted; soft tissue findings consistent with strain. Treatment plan includes physical therapy referral. Sent written upadte to claimant summarizing open items: repair estimate approval, medical bills submitted to file, and a follow-up call scheduled to check on recovery progress.

Recorded Statement

Claim number:	C-1434
Statement of:	Lisa Carter
Taken by:	Christopher Wong
Date:	12-9-24

Q: Please satte your name for the recording.

A: I'd rather you not use my name on this one, if that's okay. Just call me the driver.

Q: That works for the file. Can you tell me where the accident happened?

A: It was on a two-lane road in Sugar Land, Texas, near a shopping center. Traffic was light.

Q: What were you doing right before the collision?

A: I was heading east, slowing down for a turn. The other car came over into my lane.

Q: How fast would you estimate you were going?

A: Maybe twenty-five miles an hour, maybe less. It wasn't a hard hit. Both cars were moving slowly.

Q: Were you wearing your seatbelt?

A: Yes, always.

Q: Did the airbags deploy?

A: No, they didn't. It felt more like a hard bump and a jolt forward and back.

Q: Did you get checked out by anyone after the accident?

A: I went to urgent care that afternoon. They looked at my neck and right shoulder and took some X-rays.

Q: Where exactly is the shoulder pain?

A: It's in the front and top of my right shoulder. It hurts when I reach overhead or lift anything heavy.

Q: Have you had any prior problems with that shoulder?

A: Nothing serious. I had some soreness from lifting a few years ago, but it went away with rest.

Q: Are you currently receiving treatment?

A: I'm going to physical therapy twice a week, and the doctor has me on anti-inflammatory medication.

Q: Is there anything else you'd like to add to your statement?

A: Only that I'm still working on getting back to normal. Some days are better than others.

Q: Thank you. That concludes the statement.

A: Thank you.
