Description of the accident (claimant's words)

I was driving east on the main road in Baytown, Texas, at a slow speed because traffic was backed up near the intersection. The vehicle in front of me stopped suddenly, and I braked, but I was not able to stop in time. My front bumper struck the rear of the car ahead, and the impact pushed my vehicle forward a short distance. Both cars were moving very slowly, and no airbags deployed. I stayed at the scene, exchanged information with the other driver, and waited for the police officer to arrive and take a report. Afterward I felt stiffness and soreness in my neck and lower back. I went to a clinic the same day to be checked, and I was told I had a neck and back strain. I am still having some discomfort and am following the treatment plan I was given.
