Bodily Injury Unit

Claim Notes

Claim number:	C-1455
Claimant:	Lauren Alvarado
Adjuster:	Darin Tyler

6-2-25 - Claim opened following a side impact collision at a signalized intersection. Insured vehicle was struck on the driver side by a second vehicle that entered the intersection during the red phase. Initial photos of both vehicles received from the insured. Police report requested from the responding agency. Claimant has retained counsel, who has requested that all communication be directed to their office.

6-10-25 - Received notice of representation from claimant's attorney. Letter of representation confirms the attorney will handle the bodily injury component. Requested the claimant's medical authorization form through counsel. Reviewed scene diagram in the police report, which shows the claimant's vehicle entering on a green signal. Liability appears to favor the claimant at this stage, pending witness statements.

6-12-25 - Claimant reports pain in the right shoulder following the impact and has been seen at an urgent care facility. Records requested through counsel. Adjuster noted that the claimant's attorney stated the injury is expected to require ongoing treatment, including physical therapy. Vehicle damage appraisal completed with the repair shop, and the estimate is being reviewed against the photos on file.

6-18-25 - Spoke with the attorney's paralegal regarding the status of the medical records. Records from the urgent care visit have arrived and show a diagnosis consistent with a soft tissue injury to the shoulder. Follow-up orthopedic evaluation has been scheduled per the records. Requested a recorded statement from the claimant, to be taken with counsel present. Independent witness contact still outstanding.

6-25-25 - Recorded statement completed with claimant and counsel present. Claimant describes the other vehicle accelerating through the intersection as the light changed. Witness statement from a pedestrian obtained and is consistent with the claimant's account. File referred to the bodily injury unit for evaluation of the shoulder treatment and any further documentation from the orthopedic provider. Reserve review scheduled.

Recorded Statement

Claim number:	C-1455
Statement of:	Lauren Alvarado
Taken by:	Darin Tyler
Date:	5-28-25

Q: Thanks for taking the time to speak with me today. This recorded statement is about the collision at the intersection in Katy, Texas. Do you understand that this call is being recorded?

A: Yes, I understand.

Q: Can you describe where you were driving and what you were doing just before the collision?

A: I was heading east on the main road toward the shopping center. The light had been green for a little while, and I was going the speed limit, maybe a bit under.

Q: Did you see the other vehicle before impact?

A: Not really. It came through from the cross street on my right. I think it had been stopped at the sign. I braked, but there wasn't time to avoid it.

Q: Where did the vehicles make contact?

A: On my driver's side, just behind the front door. The airbag on my side went off, and my car spun a little before it stopped.

Q: Were you taken for medical attention?

A: An ambulance took me to the emergency room. They X-rayed my shoulder and neck and said I had a strain and some bruising. The shoulder is the main problem. It hurts when I lift my arm above my head, and I can't sleep on that side.

Q: Are you currently under the care of a doctor for the shoulder?

A: Yes, I have a follow-up with an orthopedic specialist next week. They mentioned physical therapy might be needed.

Q: Have you had any prior injuries to that shoulder?

A: No, nothing that required treatment. I play some recreational tennis, but I hadn't had any problems before this.

Q: Thank you. Is there anything else you think I should know about the accident?

A: I just want to make sure you have the photos I took at the scene. The other driver said they were sorry, and I gave my information to the police officer who responded.

Q: That's helpful. Thank you for your cooperation today.
