Description of the accident (claimant's words)

I was driving south on the main road in Katy, Texas, moving slowly through a busy intersection, when the car in front of me stopped suddenly. I braked, but the vehicle coming toward me in the opposite lane swerved into my path and we collided head-on. The impact was low speed, but the force threw me forward against the steering wheel and dashboard. Both vehicles sustained visible front-end damage, and the airbags did not deploy. Right after the collision I felt sharp pain in my right knee, and it has swollen and stiffened since then. I did not lose consciousness and I was able to exit my vehicle on my own. Paramedics checked me at the scene, and I was advised to have my knee examined further. I have stopped driving until I receive medical clearance, and I am keeping all receipts and records related to my treatment.
