Description of the accident (claimant's words)

I was driving north on the main road and approached the intersection on a green light. As I entered the crossing, a silver sedan coming from the cross street did not stop and struck the driver's side of my vehicle. The impact pushed my car sideways and I felt my head snap forward and then back against the headrest. I stayed at the scene until the officer arrived and gave my statement. The other driver admitted at the scene that they had not seen my vehicle. Afterward I experienced stiffness and sharp pain in my neck and lower back, which has limited my ability to turn my head and sit for long periods. I have been advised by my doctor to attend physical therapy and to avoid heavy lifting while I recover.
