Q: Thanks for taking the time to speak with me today. This recording is for claim purposes. Can you confirm you're comfortable with it being recorded?

A: Yes, that's fine.

Q: Great. Can you walk me through what happened at the intersection?

A: I was tunring left off the main road into the shopping center. I had my turn signal on and I was waiting for a gap in oncoming traffic. When it looked clear, I started to turn.

Q: Did you see the other vehicle before the impact?

A: Not really. I think it came up quickly from behind the car that was stopped in the other lane. I felt the impact on the driver's side almost right away.

Q: Where were you looking just before you started the turn?

A: Left, toward the oncoming lanes, and then right to check for anything coming from my side. I didn't see anything in the lane I was entering.

Q: How fast do you think you were going when you began the turn?

A: Maybe ten or fifteen miles an hour. I was basically creeping through.

Q: Were you hurt at the scene?

A: My knee hit the dashboard hard. I didn't think much of it at first, but by that evening it was swollen and I could barely bend it.

Q: Have you seen a doctor since the accident?

A: Yes, I went to urgent care the next morning. They took X-rays and told me to follow up with an orthopedic specialist. I have an appointment scheduled and I'm doing physical therapy exercises at home in the meantime.

Q: Is there anything else you'd like to add?

A: Just that I was trying to be careful. I want to make sure my medical bills are handled properly.

Q: Thank you. That concludes the statement.
