Description of the accident (claimant's words)

I was driving east through the intersection on a green light when a white pickup truck came trhough the cross street and struck the driver's side of my car. The impact spun my vehicle partially around and pushed it onto the curb. I could not stop in time, and I did not see the truck until it was already in the intersection. The airbags deployed and the door was crushed inward against my left leg. After the collision I felt sharp pain in my right knee, wihch I did not expect because I had been wearing my seatbelt. I stayed at the scene until the polcie arrived and gave my statement. The other driver admitted at the scene that they had run the stop sign. I have photos of both vehicles and of the intersection.
