Involved person:	Shane Vincent (driver)
Phone:	
Vehicle:	2022 Toyota Camry
License plate:	U53 3RS
Injuries reported:	concussion
Investigating officer:	Officer David Alvarez, Badge 1002

Officer's narrative

Officer narrative. On arrival at the intersection in Sugar Land, Texas, I observed a side impact collision involving two vehicles. Driver 1 was operating a sedan eastbound and entered the intersection on a steday green signal. Driver 2 was operating a pickup truck southbound and entered the intersection after the signal had changed. The front driver's side of the pickup struck the passenger side of the sedan. A single passenger was seated in the front passenger seat of the sedan. Driver 1 stated that he was struck without warning and that his head struck the side window. Driver 1 reported dizziness, a headache, and confusion immediately after the collision and was assessed by emergency medical personnel at the scene. Driver 1 later stated that he had been told he may have a concussion. Driver 2 stated the signal was yellow when he entered. Passenger was not injured. Both vehicles sustained heavy damage and were towed from the scene. Citations pending review of signal timing data.
