### Description of the accident (claimant's words)

I was driving east on the main road and had the green light when I entered the intersection. A vehicle coming from the cross street on my right did not stop and struck the driver's side of my car. The impact pushed my vehicle sideways and I felt a sharp pain in my left knee as it hit the dashobard and footwell. I stayed at the wheel until the airbags deployed and the vehicle came to rest against the curb. Bystanders called for help, and emergency services arrived a short time later. I was taken to a local hospital, where my knee was examined and I was told to keep weight off it and follow up with my doctor. I am still experiencing swelling and limited movement. I believe the other driver failed to yiled the right of way and is responsible for this collision.
