Description of the accident (claimant's words)

I was backing out of a parking space at the shopping center in Katy, Texas, moving slowly with my mirrors checked. I had just started to reverse when I felt a bump and heard a loud crunch. I stopped immediately and got out to find that my rear bumper had struck the front corner of a gray sedan that was pulling through the aisle behind me. Neither vehicle was moving fast, and I did not see the other car coming bceause it was partly hidden by a parked van. The impact threw my head forward and against the steering wheel. I felt dizzy, had a ringing in my ears, and a headache that got worse over the next hour. A store employee caleld for help, and I was taekn by ambulance to be evaluated. I was diagnosed with a concussion and have been advised to rest and avoid screens for several days.
