| **Reported injury:** | whiplash |

### Description of the accident (claimant's words)

I was driving in the right lane on a busy highway in Sugar Land, Texas, when I signaled and began moving left to change lanes. As I merged, a vehicle in the left lane moved into my path and struck the side of my car. Both cars were pulled toward the shoulder, and I had to stop with my hazard lights on while we exchanged information. I did not see the other vehicle in my mirror before I moved over, and I accept that I should have checked more carefully. Shortly after the impact I felt a sharp pain in my neck and upper back, and by the next morinng I had stiffness and headaches. I was evaluated by a medical provider and was diagnosed with whiplash. I am still receiving treatment and am submitting this claim for my vehicle damage and medical expenses.
