Bodily Injury Unit

Claim Notes

Claim number:	C-1481
Claimant:	Sarah Oconnor
Adjuster:	Valerie Rodriguez

23 Oct 2023 - Received first notice of loss for a low-speed head-on collision. Insured reports the other vehicle crossed into their lane on a curve. Both drivers stated no airbags deployed and both vehicles were driven from the scene. Photos requested from insured and assigned to field appraiser.

27 Oct 2023 - Claimant reports neck and shoulder pain and has retained counsel. All further contact to be routed through the attorney's office. Requested signed medical authorization and prior treatment history through counsel. Liability on the other driver appears probable based on the insured's statement and the police report narrative.

29 Oct 2023 - Field appraisal completed on both vehicles. Damage is front-end on each, consistent with a low-speed impact. Repair estimates received and under review. Recommended a quick-repair review on the insured vehicle and a supplement check on the claimant's vehicle once teardown is done.

1 Nov 2023 - Claimant's counsel submitted treatment records showing a diagnosed shoulder strain with physical therapy ordered. Records reviewed. Requested an independent medical review to confirm causation and reasonableness of the planned care. Reserve adjusted to reflect the bodily injury exposure.

10 Nov 2023 - Counsel responded that the claimant is still in active treatment and no settlement demand has been made. Diary set for follow-up in 30 days. Will continue to coordinate repair authorization for the insured vehicle and monitor the independent review for the shoulder claim.

Recorded Statement

Claim number:	C-1481
Statement of:	Sarah Oconnor
Taken by:	Valerie Rodriguez
Date:	29 Oct 2023

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather just keep it to what happened, but I'll say my name is on file already. Go ahead.

Q: That's fine. Can you describe where you were driving and what the weather and road conditions were like?

A: I was heading down the main road in League City, going maybe twenty-five miles an hour. It was clear, dry pavement, nothing unusual.

Q: Walk me through the collision itself.

A: A car came over into my lane while it was passing a truck. I tried to swerve but there wasn't much room. We hit head-on, but it was a slow impact, not like a highway crash. Both of our cars stopped pretty quickly.

Q: Did either vehicle's airbags deploy?

A: Mine did. The other car's I'm not sure about. The steering wheel and the airbag hit me hard enoguh that I felt it in my chest and shoulder.

Q: Did you get out of the vehicle right away? Were you able to move?

A: I got out on my own, but my left shoulder was throbbing and I couldn't lift my arm very well. I sat on the curb until the ambulance came.

Q: Did you receive medical treatment at the scene or afterward?

A: They took me by ambulance to the emergency room. They did X-rays and gave me a sling and some pain medication. I've been going to physical therapy twice a week since then.

Q: Have you had any prior injuries or problems with that same shoulder?

A: Nothing serious. I had some soreness years ago from lifting, but it went away and I didn't need treatment.

Q: Are you still experiencing pain or limited movement?

A: Yes. Lifting anything over my head is hard, and it aches when I sleep on that side. My doctor says it could take a few more months to get back to normal.

Q: Thank you. Is there anything else you'd like to add to your statement?

A: Only that I was driving carefully and I didn't do anything to cause this. I'd like to get it resolved so I can get back to work.

Q: Thank you for your time. This concludes the recorded statement.
