Description of the accident (claimant's words)

I was driving in the middle lane on a busy highway in Houston, Texas, when traffic slowed ahead. I checked my mirror, signaled, and began moving into the right lane. As I did, the vehicle beside me moved into the same space and its side made contact with the passenger side of my car. Both of us stopped right away on the shoulder. I did not see the other driver's vehicle in my blind spot before I moved over, and I accept that I should have checked more carefully. The impact was not severe, but it jolted my body forward and then back against the seat. Since the collision I have had stiffness and pain in my neck and lower back, which has made it hard to sleep and to sit for long periods. I have sought medical attention and will provide records as needed.
