Description of the accident (claimant's words)

I was turning left at a green light when a pickup truck coming from the opposite direction slammed into the front driver's side of my car. I had already started into the intersection and could not stop in time. The impact spun my vehicle partway around and pushed it against the curb. The airbags deployed, and I was thrown against the seatbelt and then the door. Right away I felt sharp pain in my right shoulder and could not lift my arm without pain. A bystander called for help, and I was taken by ambulance to the nearest hospital, where I was examined and told the shoulder needed further evaluation. My car is not drivable and has been towed from the scene. I am asking that this claim cover the vehicle damage, the medical treatment for my shoulder, and the time I have missed from work.
