Claim Notes

Claim number:	C-1485
Claimant:	Margaret Thomas
Adjuster:	Valerie Rodriguez

10 Aug 2023 - Claim opened following a low-speed collision in a parking lot between the insured vehicle and a third-party vehicle. Insured reports backing into a parked vehicle while exiting a space. Third-party vehicle has visible rear bumper damage. Police report not filed; both parties exchanged information at the scene. Claimant has since retained counsel, who has requested that all communication be directed to their office.

15 Aug 2023 - Claimant's attorney submitted a demand package including a physician's note describing a concussion diagnosis, with symptoms reported as headaches, light sensitivity, and difficulty concentrating. Medical records requested through counsel. Authorization forms sent to the attorney's office for signature. Liability appears probable based on the insured's statement and the damage pattern, but injury extent is not yet verified.

21 Aug 2023 - Spoke with claimant's attorney regarding the scope of treatment. Counsel indicates ongoing follow-up with a neurologist and a referral for vestibular therapy. Requested updated records and a current treatment timeline. Attorney asked that no recorded statement be taken from the claimant at this stage. Noted and documented in file.

25 Aug 2023 - Received medical records from the treating provider via counsel. Records confirm concussion diagnosis and document reduced symptom severity over the past several weeks. Referred the file for medical bill review. Reserve reviewed and adjusted to reflect pending therapy costs and possible future treatment. Supervisor notified of the injury component.

31 Aug 2023 - Counsel contacted this office to discuss settlement posture. Requested that the bodily injury evaluation be completed once the treating neurologist issues a final assessment. Adjuster advised that a liability determination and an injury evaluation will both be needed before any offer can be considered. Diary set for follow-up with counsel and medical review in thirty days.

Q: Thanks for taking the time to speak with me today. This recorded statement is about the parking lot collision you were involved in in Pearland, Texas. Do you understand that this call is being recorded?

A: Yes, I understand.

Q: Please tell me in your own words what happened.

A: I was pulling out of a parking space at the shopping center. I checked my mirrors and started backing up slowly. Another vehicle was coming down the aisle, and I didn't see it until it was already close. Our bumpers made contact.

Q: Were you moving when the impact occurred?

A: Yes, I was backing out at very low speed, maybe a few miles an hour.

Q: Did you notice any injuries right after the collision?

A: My head hit the side window pretty hard when the car jolted. I felt dizzy and had a headache right away. I sat in the car for a few minutes before I got out.

Q: Have you been seen by a medical provider since the accident?

A: Yes, I went to urgent care that afternoon. They said I had a concussion and told me to rest and avoid screens for a while. I've been having trouble concentrating and I get tired quickly.

Q: Are you still under a doctor's care?

A: Yes, I have a follow-up appointment with my primary care physician next week, and I'm keeping a symptom log.

Q: Is there anything else you think I should know about the incident?

A: Only that I'm still dealing with the symptoms, and I'd like to make sure my medical bills are covered.

Q: Thank you. This concludes the statement.

A: Thank you.
