Description of the accident (claimant's words)

I was backing out of a parking space at a shopping center in Pearland, Texas, around midday, moving slowly with my mirrors checked. As I reversed, the rear of my vehicle struck the front corner of a pickup truck that was coming down the aisle behind me. I had not seen it approaching, and I stopped immediately once I felt the impact. Both vehicles were driven at very low speed, but the impact was enough to dent my rear bumper and crack the other driver's tail light housing. I got out to exchange information and check on the other driver, who appeared shaken. Shortly afterward I began to feel dizzy, had a headache, and felt confused about what had just happened. I was taken by ambulance to a local hospital, where I was diagnosed with a concussion and advised to rest. I am submitting this account for my claim and can provide medical records on request.
