Description of the accident (claimant's words)

I was driving home on a rainy weekday evening when the car ahead of me stopped suddenly at the intersection. I braked, but the road was slick and my vehicle slid forward into the rear of the stopped car, a low-speed head-on impact that I wuold estimate at under 10 mlies per hour. Both airbags did not deploy, and I stayed in my seat with my seatbelt fastened. My head struck the steering wheel and then the side window, and I felt dizzy, nauseous, and confused for several minutes afterward. Emergency medical staff evaluated me at the scene and recommended I be seen at a hospital, where I was diagnosed with a concussion. I have been advised to rest, avoid screens, and refrain from driving until my physician clears me. My vehicle sustained front-end damage, and I have attached photographs and the police report.
