Description of the accident (claimant's words)

I was driving south on the frontage road near the Conroe exit when the car ahead of me stopped suddenly to avoid debris in the lane. I braked, but the vehicle behind me was following too closely, so I had nowhere to go. The collision was low speed and happened head-on with the vehicle in front of me, which was the impact I had been trying to avoid. Both cars were drivable at first, though the front ends were badly crushed. When I climbed out, my left wrist was throbbing and I could not grip anything. An ambulance took me to the emergency room, where X-rays confirmed a fracture of my wrist. I have since been placed in a cast and referred to an orthopedic specialist for follow-up care. I am submitting this statement to document what happened and the injury I sustained.
