Bodily Injury Unit

Claim Notes

Claim number:	C-1002
Claimant:	Christopher Shah
Adjuster:	Christopher Wong

7-18-25
Claim opened after the insured reported a collision at an intersection while turning left, with the claimant's vehicle reportedly struck on the driver's side. The claimant is represented by counsel, and all further contact will route through the attorney's office.

7-28-25
Reviewed the policy and confirmed the driver involved is listed as a named insured, and the policy was active at the time of loss. No coverage questions have arisen so far.

8-5-25
Obtained the police report, which places the claimant in the vehicle at the scene and records the same general sequence of events the claimant described to me on first contact.

8-9-25
Photos from the scene and the shop show damage that lines up well with a left-turn impact of this kind. A few older scratches appear on the lower panels and may predate this loss; I have noted them separately for the appraiser.

8-13-25
Spoke with the claimant's attorney, who confirmed the injury claim is whiplash. The account given matches what the claimant said in every earlier conversation, with no changes in the timeline or details.

10-13-25
No independent witnesses have come forward. The photos confirm several details of the scene, but nothing in the file yet speaks to what happened beyond what the parties have described.

10-22-25
Medical records show the reported injury is consistent in type and force with the collision. Treatmnet followed a typical course and tapered as the claimant improved.

12-9-25
Prior records show a minor strain in the same area several years ago, which resolved fully without lasting effects. I have asked the medical reviewer to account for this history in the evaluation.

12-11-25
Requested the claimant's prior treatment history through the attorney for completeness. Nothing in the file so far suggests the vehicle damage occurred before the coverage start date.

1-7-26
Appraiser's estimate ailgns with the described impact. Final determination on the older scratches is pending, and I will reconcile them with the repair scope.

2-16-26
File is current and awaiting the medical reviewer's note and the appraiser's final scope. Next review is scheduled once both have been received.

Recorded Statement

Claim number:	C-1002
Statement of:	Christopher Shah
Taken by:	Christopher Wong
Date:	6-30-25

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision you were involved in while turning left in Sugar Land. Please state your full name for the record.

A: I'd rather just leave my name out of the recording, if that's all right. You already have my file.

Q: That's fine. Can you describe where you were heading when the collision happened?

A: I was driving through an intersection on a main road, turning left onto a side street toward a shopping area.

Q: What was the traffic signal sohwing when you began your turn?

A: It had turned yellow while I was approaching, and I was already in the intersection when it changed. I had a gap in oncoming traffic, so I started my turn.

Q: Did you see the other vehicle before the impact?

A: Not clearly. I saw headlights coming toward me, but I thought there was more room than there was. The impact came from the front passenger side of my car.

Q: How fast were you traveling when you started the turn?

A: Slowly, I think. Maybe fifteen or twenty miles an hour. I was braking for the light, so I wasn't moving fast.

Q: Were you wearing your seatbelt?

A: Yes, I was.

Q: Did you get out of the vehicle at the scene or go to a medical facility afterward?

A: I stayed in the car for a few minutes, then got out. I felt stiff right away. A paramedic checked me, and I went to urgent care the same evening.

Q: Can you describe the injuries you are currently experiencing?

A: My neck hurts, especially when I turn my head to check my blind spots. I've had headaches and some pain between my shoulder blades. I've been doing physical therapy twice a week.

Q: Is there anything else you would like to add to your statement?

A: Only that I'm trying to get back to normal and I'm still having trouble sleeping because of the pain.

Q: Thank you. This concludes the recorded statement.
