Claim Notes

Claim number:	C-1003
Claimant:	Michael King
Adjuster:	Jerry Hanson

2025-04-02
Claim reported by the insured's policyholder after a side impact at a signalized intersection. The vehicle was struck on the driver's side by a vehcile that entered on a red signal, and a tow was arranged from the scene.

2025-04-26
Confirmed that the driver is named on the policy and that the policy was in force on the date of loss. Coverage questions are closed for now.

2025-04-27
Claimant is represented by counsel, and all further contact will go through the attorney's office. Requested the police report and the scene photographs.

2025-05-09
Police report received. The responding officer noted the claimant was in the vehicle and recorded the same sqeuence of evetns the claimant described when first contacted.

2025-05-19
Took statements from two independent witnesses. Both describe the impact as I was told, and neither has any connection to the parties involved.

2025-07-31
Reviewed the photographs and the damage estimate. The location and pattern of the damage match the side impact described, and no older damage to the vehicle is known from prior claims or inspection records.

2025-08-31
The other driver's statement matches the account given by the claimant and the witnesses on how the collision happened.

2025-09-18
The claimant reported a concusison with headaches and dizziness. The reported symptoms are plausible for a collision of this type, and I found no record of earlier injury to the head or neck.

2025-10-03
Medical records received from the treating providers. Care followed a typical course of evaluation, imaging, and follow-up visits, with symptoms easing steadily as the claimant recovered.

2025-10-09
Spoke with the claimant's attorney, who confirmed the account and provided the treatment timeline. The claimant's description of events has stayed consistent in every conversation so far.

2025-10-17
Reviewed the treatment summary against the records already on file. Visit frequency has tapered as symptoms improved, which is consistent with the recovery reported by the providers.

2025-10-18
File assessed as complete for the current stage. Injury and property elements are supported by the evidence, and the next step is to finalize the settlement evaluation with counsel.

Recorded Statement

Claim number:	C-1003
Statement of:	Michael King
Taken by:	Jerry Hanson
Date:	2025-04-03

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision you reported at an intersection in Pasadena, Texas. Do you understand that this call is being recorded?

A: Yes, I understand.

Q: Please state your full name for the record.

A: I'd rather use [claimant name] for this, if that's okay.

Q: That's fine. Can you describe where you were driving when the collision happened?

A: I was heading through a four-way intersection on a residential street. The light had been green for me, or at least I thought it had been.

Q: What happened next?

A: A vehicle came from my right side and hit the passenger door. I felt the impact right away, and my car spun partway around before stopping against the curb.

Q: Were you injured?

A: I hit my head on the window frame. I didn't lose consciousness, but I've had a bad headache since, I get dizzy when I stand up too fast, and bright lights bother my eyes. My doctor said it's a concussion.

Q: Have you seen a medical provider since the collision?

A: Yes, I was taken to an urgent care clinic that same day, and I've had two follow-up visits since. I'm still taking it easy and not driving much.

Q: Did you notice anything unusual about the other driver before the collision?

A: Not really. They seemed to be moving at a normal speed. I was focused on the road ahead.

Q: Is there anything else you'd like to add to your statement?

A: Only that I'm still recovering, and I'd appreciate it if you could keep me updated on the claim.

Q: Thnak you. This concludes the recorded statement.
