### Description of the accident (claimant's words)

I was driving through the intersection on a green light when a vehicle coming from my right ran the signal and struck the side of my car. The impact spun my car partway around and threw me against the driver's door. I did not lose consciousness at the scene, but I felt dazed and had a headache and ringing in my ears. The police officer who responded and the paramedics who checked me heard the same description from me each time, and I have told it the same way to the adjuster and my doctor. I am the named driver on this policy, and I am filing this claim for the damage to my vehicle and my medical treatment for a concussion. I have kept all the records I have received so far and will provide anything else requested.
