Claim Notes

Claim number:	C-1006
Claimant:	Diane Hernandez
Adjuster:	Valerie Rodriguez

March 29, 2023
First notice of loss received from the claimant, who reports being sideswiped while changing lanes on a multi-lane road. The claimant states the other vehicle drifted into their lane as they signaled to merge.

April 8, 2023
Confirmed with the policyholder that the driver at the time of loss is listed on the policy and the vehicle is covered under the current term. No concerns noted with coverage status.

May 25, 2023
Spoke with the claimant, who described the same sequence of events as in the initial report. The account was consistent on the point of impact and the position of both vehicles.

July 13, 2023
Obtained the police report, which confirms the claimant was present in the vehicle at the scene and records the lane-change sideswipe. Responding officer noted the other driver's admission of being in the adjacent lane.

August 18, 2023
Reviewed photographs submitted by the claimant and taken at the scene. Damage along the driver-side panel lines up with the described impact, and no earlier damage to the vehicle is known from prior records.

August 28, 2023
Took statements from two witnesses who saw the collision. Both describe the other vehicle moving laterally into the claimant's lane, matching the claimant's account and the other driver's statement.

September 27, 2023
Claimant reports shoulder pain from the impact and has begun treatment. The injury is a plausible result of a sideswipe of this kind, and no prior injury to the same area is known.

October 20, 2023
Treatment has followed a typical cousre with physical therapy and periodic check-ins. The claimant reports steady improvement, and the frequency of visits has been tapering as expected.

October 24, 2023
Contacted the claimant for a status update. Recovery is progressing, the claimant is returning to normal activities, and the account of the accident remains unchanged from the first report.

November 1, 2023
Reviewed the file as a whole. Accident facts, vehicle damage, witness accounts and the injury are all consistent with one another, and nothing in the record suggests the damage predates the policy start. File remains open pending final treatment records.

Recorded Statement

Claim number:	C-1006
Statement of:	Diane Hernandez
Taken by:	Valerie Rodriguez
Date:	March 19, 2023

Q: Thank you for taking the time to sepak with me today. This recorded statement concerns the sideswipe collision you reported in Conroe, Texas. Please state your full name for the record.

A: I'd rather just keep it to the accident, if that's alright. I'm the driver of the vehicle that was involved.

Q: That's fine. Can you describe where you were and what you were doing right before the collision?

A: I was on the main road in Conroe, in the right lane, and I needed to move over to the left lane because my exit was coming up. I checked my mirror and signaled, and I started to change lanes.

Q: Did you see the other vehicle before you moved over?

A: Not really. I looked, but I didn't see anything beside me. Then I felt a bump and heard a loud scrape on the side of my car. The other vehicle was already alongside me when I noticed it.

Q: Did either vehicle stop after the contact?

A: We both pulled over onto the shoulder. The other driver got out and we talked for a minute, then we exchanged information.

Q: Did you go to a medical facility afterward?

A: Yes, I went that evening. My right shoulder was sore right away, and by the next morning I could barely lift my arm above my head. They told me it looked like a strain and gave me some medication and a sling for a few days.

Q: Are you currently receiving any treatment for the shoulder?

A: I have a follow-up with my doctor next week, and I'm doing some basic stretches at home. It still hurts when I reach for things or drive for long periods.

Q: Is there anything else about the collision you'd like to add?

A: Just that I was trying to be careful. I signaled and checked, and I still ended up getting hit.

Q: Thank you. That concludes the statement.
