Claim Notes

Claim number:	C-1010
Claimant:	Stephen Carlson
Adjuster:	Christopher Wong

July 23, 2024
Initial report received from the insured driver's policy line describing a left-turn collision at an intersection. The insured driver is named on the policy and the vehicle was insured at the time of loss.

September 12, 2024
Spoke with the claimant's rperesenting attorney, who confirmed the claimant was seated in the vehicle and reports neck and back pain following the impact. Requested the medical authorization and the treatment list.

October 10, 2024
Reviewed the police report, which places the claimant in the vehicle and records the other vehicle's involvement. No independent witnesses are listed, and no one has come forward since.

October 24, 2024
Photos from the scene and the repair shop show damage mostly in line with the described impact. Some details in the photos confirm the account, while others remain unclear and will need an inspection.

November 16, 2024
Took the claimant's recorded statement through counsel. The account of how the collision occurred matched what was given in the initial call and in the attorney's first letter.

December 14, 2024
Received the first treatment records. The reported back strain fits the kind and force of the crash, and the early care followed a usual course.

December 17, 2024
Prior medical history shows a small strain in the same area several years ago, which healed fluly with no ongoing care. Nothing in the records suggests the current complaint is a continuation of that episode.

January 21, 2025
Checked the vehicle history and found no earlier damage on file for this vehicle. Nothing indicates the damage predates the start of coverage.

February 6, 2025
Reviewed the later treatment notes, which show the claimant's symptoms tapering off as they improved with care. The file is being prepared for evaluation of the bodily injury portion of the claim.

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision you were involved in while turning left in Houston, Texas. Do you understand that this call is being recorded?

A: Yes, I understand.

Q: Please state where you were driving and what you were doing just before the collision.

A: I was driving my sedan through an intersection with a green light. I was turning left onto the cross street, and I was going slowly because I had to yield to oncoming traffic.

Q: Did you see the other vehicle befroe impact?

A: Not at first. I saw it when it was already close, maybe a second or two before we collided. It came from the opposite directoin and crossed into my path.

Q: How fast do you estimate the other vehicle was traveling?

A: It was faster than I expected. I'd guess it was well above the posted limit, but I can't say for certain.

Q: Where did the impact occur on your vehicle?

A: On the driver's side, toward the front wheel. My airbag did not deploy, but I was thrown against the seatbelt and felt a sharp pain in my lower back right away.

Q: Have you sought medical attnetion since the collision?

A: Yes. I went to an urgent care clinic that same afternoon. They said I had a back strain and gave me muscle relaxers and told me to rest and follow up with my own doctor.

Q: Are you currently experiencing any symptoms?

A: Yes, I still have stiffness and some pain when I bend or sit for a long time. I've been taking it easy at work and I'm doing physical therapy twice a week.

Q: Is there anything else you would like to add to your statement?

A: No, I think that covers it. I just want to get my car repaired and get back to normal.

Q: Thank you. This concludes the recorded statement.
