Claim Notes

Claim number:	C-1011
Claimant:	Chad Richmond
Adjuster:	Christopher Wong

2025-05-21

Claimant reported a sideswipe that occurred while changing lanes on a multi-lane road, with the other vehicle moving into the claimant's lane and making contact along the passenger side. The claimant is unrepresented and provided an initial statement by phone, describing neck and back pain beginning shortly after the impact.

2025-06-21

Reviewed the photos submitted by the claimant and the damage pattern on the vehicle, which lines up with the described impact along the side panels and mirror. No earlier damage to the vehicle is known, and nothing in the file suggests the damage predates the start of coverage. The driver is shown as a named driver on the policy.

2025-07-20

Spoke with the other driver, who confirmed the lane change and the contact between the two vehicles. Two independent witnesses in nearby vehicles gave statements that macth the claimant's account of how the collision happened.

2025-09-16

Medical records show the claimant was seen for neck and back strain, with the type and level of injury fitting the force of a side impact. No prior injury to the same body areas is on record. Treatment followed a typical course and eased off as the claimant improved.

2025-10-25

The cliamant has given the same account of the accident in every conversation so far. It is not yet fully clear from the statements and photos exactly where in the vehicle the claimant was seated at the moment of impact, so I have requested a follow-up question on seating position.

2025-11-27

Based on the photos, witness statements, the other driver's confirmation, and the medical picture, the claim is consistent across sources and I am recommending it proceed to standard settlement review, with the seating position question noted as the only open item.

Recorded Statement

Claim number:	C-1011
Statement of:	Chad Richmond
Taken by:	Christopher Wong
Date:	2025-04-09

Q: Good morning. This is the adjuster following up on the claim you reported. Is it all right if I record this statement?

A: Yes, that's fine.

Q: Please state where you were when the collision happened.

A: I was driving on the frontage road in League City, Texas, heading toward the main highway. I was in the right lane and needed to move left to get over for my exit.

Q: Walk me through what you did before you changed lanes.

A: I checked my mirror and glanced over my shoulder. I saw a vehicle a fair distance back, or so I thought. I put on my turn signal and started to move over.

Q: What happened next?

A: The other car was closer than I realized. It came up beside me and we made contact along the passenger side of my car. There was a loud scrape and my car pushed slightly toward the curb before I got it stopped.

Q: Were you injured at the scene?

A: Not right away. I felt fine for the first few minutes, but by the evening my neck was stiff and my lower back was sore. The next morning it was worse, and I had trouble turning my head to check traffic.

Q: Have you seen a doctor since the collision?

A: Yes, I went to an urgent care clinic the following day. They diagnosed a neck and back strain and gave me muscle relaxers and a referral to physical therapy. I have been going to therapy twice a week since then.

Q: Do you have any prior injuries to your neck or back?

A: I had some stiffness years ago from sleeping wrong, but nothing that required treatment or time off work.

Q: Is there anything else you would like to add to your statement?

A: No, I think that covers it. I just want to make sure my medical bills are handled properly.

Q: Thank you. We will be in touch with next steps. This concludes the statement.

A: Thank you.
