Claim Notes

Claim number:	C-1013
Claimant:	Lauren Stevens
Adjuster:	Christopher Wong

4-4-23

Claimant reported a rear-end collision at a low-speed intersection and stated they were stopped at the light when their vehicle was struck from behind. They are not represented by counsel and have asked for the claim to be handled directly.

5-31-23

Reviewed the policy and confirmed the driver reporting the loss is named on it and the coverage was active at the time of the incident. Police report and both drivers' statements have been requested.

6-7-23

Spoke with the other driver, who described the collision the same way the claimant did. Two witnesses at the scene have been contacted, and photos taken on the day show rear-end damage consistent with the reported impact. Police confirmed the claimant was in the vehicle when officers arrived.

6-27-23

Claimant reports neck and back pain beginning the day of the accident and has provided medical records showing a back strain diagnosis. The injury fits the force and direction of the collision, and no prior treatment to the same area is known from the records or the claimant's history.

7-20-23

A neighbor mentioned seeing the vehicle with body damage several weeks before the claimed loss date. This has been noted for follow-up, and the claimant has been asked to clarify any earlier damage to the vehicle. No prior damage has been recorded on file so far.

8-4-23

Claimant has given the same account of the accident in every conversation so far. Medical treatment followed a typical course and tapered off as recovery progressed, and the vehicle damage estimate is largely in line with the described impact. Claim is progressing with the neighbor comment still open for review.

Recorded Statement

Claim number:	C-1013
Statement of:	Lauren Stevens
Taken by:	Christopher Wong
Date:	2-18-23

Q: Thanks for taking the time to speak with me today. This call is being recorded for claim purposes. Can you confirm you're okay with that?

A: Yes, that's fine.

Q: Great. Can you describe what happened on the day of the collision?

A: I was stopped at a red light on a main road in League City, waiting to turn left. I had been tehre for maybe thirty seconds when I felt a hard jolt from behind. My head snapped forward and then back against the headrest.

Q: Which vehicle was behind you?

A: A pickup truck. The driver got out and came up to my window pretty quickly. He said he had looked down at his phone for a second and didn't brake in time.

Q: Did you exit your vehicle at the scene?

A: Yes, I got out to look at the bumper. There was a crack in the rear of my car and the pickup had some damage to its front end.

Q: Did you feel any pain right away?

A: Not right away. About an hour later my lower back started tightening up, and by the next morning it was hard to get out of bed.

Q: Have you sought medical treatment since the collision?

A: Yes. I went to an urgent care clinic that afetrnoon and was seen again by my primary doctor later in the week. They diagnosed a back strain and told me to rest, take anti-inflammatories, and do some gentle stretching.

Q: Are you still experiencing symptoms?

A: Some days are better than others. Sitting for long periods bothers me, and I've had to skip a few shifts at work because of it.

Q: Thank you. Is there anything else you'd like to add?

A: No, I think that covers it. I'm hoping to get back to normal soon.

Q: Thank you for your time. We'll be in touch with next steps.
