Claim Notes

Claim number:	C-1018
Claimant:	Tiffany Bennett
Adjuster:	Darin Tyler

2025-06-07
Claim opened for a sideswipe that occurred while the insured's vehicle was changing lanes. The claimant reports a knee injury and is not represented by an attorney.

2025-07-10
Confirmed that the driver is listed on the policy and that coverage was active at the time of the loss. Nothing in the file suggests the damage predates the policy start.

2025-07-25
Police report and two witnesses at the scene place the claimant inside the vehicle at the time of the collision. Photos taken at the scene show some of the reported details, but no independent witnesses have come forward.

2025-08-04
Reviewed the vehicle damage against the described impact. The dent pattern and paint transfer are consistent with a sideswipe from the adjacent lane.

2025-08-13
Obtained a dated inspection photo from a prior service visit. It shows the same dent on the vehicle before this crash, which makes the earlier damage an open question I need to look into further.

2025-08-21
Spoke with the claimant by phone. The account of how the collision happened matched the first statement given at the scene.

2025-08-23
Reviewed the knee injury against the kind and force of the collision. The injury is a reasonable match for this type of impact.

2025-09-03
Checked prior medical records. No earlier injury to the same body area is on file.

2025-09-12
Treatment followed a typical course, with visits tapering off as the claimant's knee improved. Records reflect steady recovery.

2025-11-26
The claimant has given the same account in every conversation so far. Based on the current file, the claim is ready for coverage review and a settlement recommendation, with the prior dent photo still needing a follow-up.

Recorded Statement

Statement of:	Tiffany Bennett

Q: Thank you for agreeing to give this recorded statement. Can you confirm you're comfortable with us recording this call?

A: Yes, that's fine.

Q: Please describe where you were when the collision happened.

A: I was driving on the main road in Baytown, Texas, in the right lane. I needed to move over to the left lane because I was approaching my exit.

Q: What did you do before you changed lanes?

A: I checked my mirror and glanced over my shoulder. I saw a car in the lane next to me, but it looked far enough back that I thought I had time to move over.

Q: What happened next?

A: As I started to move, the other vehcile came up quickly and sideswiped the passenger side of my car. I felt a hard jolt and heard metal scraping. I steered back into my lane and pulled onto the shoulder.

Q: Were you injured?

A: Yes. My right knee hit the steering column and dashboard area. It's swollen and painful, and I have trouble putting weight on it.

Q: Have you seen a doctor or gone to an emergency room?

A: I went to an urgent care clinic later that afternoon. They took X-rays and told me to follow up with a specialist for further evaluation.

Q: Is there anything else you'd like to add about the accident?

A: Only that I was driving carefully and signaling before I moved over. I just want to make sure my side of things is on record.

Q: Thank you. That concludes the statement.

A: Thank you.
