Bodily Injury Unit

Claim Notes

Claim number:	C-1019
Claimant:	Catherine Cunningham
Adjuster:	Chelsea Hebert

September 27, 2023
The insured reported a left-turn collision at an intersection, with the other vehicle striking the driver's side as the insured was turning across oncoming traffic. The claimant's attorney has notified us of representation and asked that all contact go through their office.

October 31, 2023
Reviewed the police report, which places the claimant in the vehicle at the time of the impact. The driver is named on the policy, and the coverage records show no gap in coverage around the loss.

November 18, 2023
Spoke with the other driver, who gave the same description of the collision as the insured did. Photos from the scene line up with that account and show the damage pattern we would expect from the impact.

November 20, 2023
Two independent witnesses gave statements confirming the left turn and the point of impact. Neither had any connection to either party.

November 26, 2023
Inspected the vehicle and found damage largely consistent with the described impact. No earlier body damage or prior repairs were visible, and nothing in the file suggests the damage predates the policy start.

January 6, 2024
Claimant reports a back strain from the collision. The injury fits the kind and force of a side impact of this type, and the claimant's account of symptoms has stayed the same in every contact so far.

January 9, 2024
Medical records show the claimant had a small strain in the same area several years ago, which resolved completely with care. The prior episode has no bearing on the current complaint as documented.

January 25, 2024
Treatment followed a usual course for this kind of strain, with physical therapy and scheduled follow-up visits. Care has tapered as the claimant's condition has improved.

February 6, 2024
Spoke with the claimant's attorney, who confirmed the same account of the collision and the treatment timeline. Requested updated treatment notes to close out the medical file.

March 22, 2024
Reviewed all materials gathered to date. The loss appears to match the reported facts, and the file is ready for the next settlement review.

Recorded Statement

Claim number:	C-1019
Statement of:	Catherine Cunningham
Taken by:	Chelsea Hebert
Date:	August 19, 2023

Q: Thanks for taking the time to give this recorded statement. Please state your full name for the record.

A: I'd rather not have my name in it, but you can refer to me as the claimant.

Q: That's fine. Can you tell me where you were when the collision happened?

A: I was in League City, Texas, making a left turn at an intersection with a traffic signal.

Q: What was the signal showing when you started the turn?

A: It had turned yellow, and I was already in the middle of the intersection, so I completed the turn.

Q: Did you see the other vehicle before impact?

A: Not clearly. I saw headlights coming from the opposite direction, but I assumed the driver would stop.

Q: How fast were you going?

A: Prboably around twenty-five miles per hour. I was slowing for the light.

Q: Where did the impact occur on your vehicle?

A: On the driver's side front, near the wheel well.

Q: Did you feel any injuries right after the collision?

A: My lower back was stiff, but I didn't think much of it at first. By the next morning it was sharp and I had trouble bending.

Q: Have you sought medical care since then?

A: Yes, I was seen at an urgent care clinic and was told I had a back strain. I've been doing physcial therapy twice a week.

Q: Did you have any back problems before this collision?

A: I had some minor soreness now and then from lifting at work, but nothing that stopped me from working or needed treatment.

Q: Is there anything else you'd like to add?

A: Only that I'm still having pain when I sit for long periods, and I'm following my doctor's instructions.

Q: Thank you. That concludes the statement.

A: Thank you.
