Claim Notes

Claim number:	C-1020
Claimant:	Heather Madden
Adjuster:	Valerie Rodriguez

04/11/2024
The claimant reported that a vehicle sideswiped their car while changing lanes on a multi-lane road, and the claim was opened the same day. The claimant is not represented by a lawyer and has been handling the claim directly.

05/07/2024
The driver is named on the policy, and the coverage was confirmed as active at the time of the reported loss. Nothing in the records suggests the damage existed before coverage started.

06/09/2024
Photos submitted by the claimant show scrapes and a dented rear quarter panel along the driver side. The damage pattern is consistent with the impact described in the first report.

06/13/2024
Police confirmed the claimant was in the vehicle when the report was filed at the scene. No independent witnesses have come forward to date.

06/17/2024
The claimant reported a concussion with headache and dizziness following the collision. The reported injury appears to match the kind and force expected from a sideswipe of this type.

07/04/2024
The claimant described the events in the same way during the initial call, the written statement, and the follow-up interview. The account has remained consistent across every conversation.

07/13/2024
A check of available records found no prior damage to the vehicle in the same areas. No earlier repair history has been identified that would account for the current damage.

08/17/2024
The claimant was referred for medical evaluation and began a standard course of treatment for head injury. The treatment followed a typical progression for this type of injury.

11/06/2024
A review of medical history found no earlier injury to the head or neck area. Nothing in prior records suggests a pre-existing condition affecting the current claim.

11/11/2024
The claimant reported steady improvement over the following weeks, with headaches becoming less frequent. Treatment visits tapered off as the symptoms resolved, which fits the expected recovery pattern.

11/27/2024
The vehicle damage estimate was reviewed against the photos and the described impact, and the two align. The estimate has been approved for repair pending final supplement review.

11/29/2024
Based on the consistent account, the confirmed coverage, the photos, the police report, and the medical records, the claim is progressing toward resolution. No further information is needed at this time.

Recorded Statement

Claim number:	C-1020
Statement of:	Heather Madden
Taken by:	Valerie Rodriguez
Date:	04/11/2024

Q: This is the adjuster following up on your claim. This call is being recorded. Do you consent to the recording?

A: Yes, I consent.

Q: Please state where you were when the collision happened.

A: I was driving in Conroe, Texas, in the right lane of the main road, heading toward the shopping center.

Q: What were you doing right before the impact?

A: I was changing lanes to move over to the left lane because the right lane was ending. I checked my mirror, saw the car behind me was far back, and started to move over.

Q: Did you use your turn signal?

A: I did. I had it on for a few seconds before I started moving.

Q: What happened next?

A: The other vehicle came up quickly in the lane I was moving into and clipped the rear passenger side of my car. My car spun a little and hit the curb on the shoulder.

Q: Did you see the other vehicle before it hit you?

A: Not clearly. I heard a horn and then felt the impact. I don't think I could have seen it sooner.

Q: How are you feeling now?

A: I have a bad headache, I feel dizzy when I stand up quickly, and bright lights bother my eyes. My doctor said I have a concussion and I need to rest and avoid screens for a while.

Q: Have you been seen by a medical provider since the accident?

A: Yes, I went to urgent care the same day and I have a follow-up scheduled with my primary doctor.

Q: Is there anything else you want to add to your statement?

A: Only that I was careful during the lane change and I want this claim handled as soon as possible because I'm missing work.

Q: Thank you. That concludes the recorded statement.

A: Thank you.
