Claim Notes

Claim number:	C-1022
Claimant:	Nancy Johnson
Adjuster:	Darin Tyler

2-17-24
Reported a sideswipe that occurred while the insured vehicle was changing lanes on a multi-lane road. The claimant was the driver of the insured vehicle, and the policyholder confirmed the driver is a mebmer of the household and covered under the policy.

2-26-24
Obtained the police report, which places the claimant inside the vehicle at the scene. The other driver's statement describes the same lane change and contact along the passenger side.

3-11-24
Two independent witnesses were reached and both describe the vehicles making contact as one drifted into the adjacent lane. Scene photos were received and show scraping and a dented rear quarter paenl consistent with the reported impact.

4-5-24
Calimant reports pain in the right shoulder and was transported to an urgent care facility the same day. Medical records requested and a treating provider has been identified.

4-20-24
Estimate received for the body work. Most of the damage appears to be in line with the described contact, and the appraiser noted nothing that conflicts with the account given so far.

5-3-24
Claimant is now represented by an attorney, who has asked that all further contact go through their office. Recorded the representation and paused direct contact with the claimant.

5-19-24
Treating physician notes describe a shoulder strain with a soft tissue component, which the adjuster considers a reasonable match for the force of a side impact. Treatment has been physical therapy and over-the-counter medication, and the notes show steady improvement.

5-31-24
Attorney's office provided a written account that adds a few small details, such as the exact position of the other vehicle before the lane change. The core sequence of events remains the same as in the original report.

6-18-24
A neighbor contacted the desk and stated the insured vehicle appeared to have body damage several weeks before the reported accident. No earlier damage to the vehicle is on file, and the neighbor has not provided photos or other support for the observation.

8-26-24
Reviewed prior claims and medical history databases. No earlier injury to the shoulder or other affected area has been found for the claimant, and the vehicle shows no prior loss on record.

9-3-24
Physical therapy has tapered as the claimant's range of motion has returned, and the treating provider expects discharge from active care soon. File remains open pending final medical bills and the attorney's demand package, with the neighbor's comment noted for follow-up.

Recorded Statement

Claim number:	C-1022
Statement of:	Nancy Johnson
Taken by:	Darin Tyler
Date:	2-2-24

Q: Thanks for taking the time to speak with me today. This call is being recorded for claim processing. Can you confirm you're comfortable continuing?

A: Yes, that's fine.

Q: Please describe where you were when the collision happened.

A: I was driving on the main road in Sugar Land, Texas, heading toward the shopping center. It was a weekday afternoon and traffic was moderate.

Q: What were you doing right before the impact?

A: I was moving from the left lane into the right lane because I needed to make a turn at the next exit. I checked my mirror and glanced over my shoulder, and I thought the lane was clear.

Q: What happened next?

A: The other vehicle was in my blind spot. It came alongside me and we sideswiped each other. I felt a jolt, and my car drifted a bit before I got it under control.

Q: Did you see the other vehicle before the contact?

A: Not clearly. I saw something gray in the corner of my eye just as I started to move over, but I didn't process it in time.

Q: Were you hurt?

A: Yes. My right shoulder hit the door frame and I've had pain since then. I went to urgent care that evennig and they told me it looked like a strain, possibly a partial tear. I've been icing it and taking medication.

Q: Are you currently receiving any treatment?

A: I have a follow-up with an orthopedic clinic next week. My arm still feels weak when I lift anything overhead.

Q: Is there anything else you'd like to add about the collision?

A: Only that I'm sorry for any damage to the other car. I just want to get everything sorted out.

Q: Thank you. We'll follow up in writing with next steps.

A: Thank you.
