Claim Notes

Claim number:	C-1024
Claimant:	Erica Holland
Adjuster:	Alison Sweeney

12/12/2024
The claimant reported a left turn collision at an intersection, and the other driver's account matches this description. I opened the file and requested the police report and photos of both vehicles.

01/04/2025
Photos from the scene show damage to the front of the other vehicle and the driver side of the claimant's car, which fits the impact described. The vehicle damage matches the described impact.

02/08/2025
The claimant is not represented by a lawyer and handled the frist call directly. The claimant said they felt neck and upper back discomfort within an hour and went to urgent care that evening.

02/09/2025
Two witnesses at the intersection gave statements confirming the signal timing and the path of each vehicle. Both independently dsecribed the collision the same way the claimant did.

03/06/2025
The driver is named on the policy, and the policy was in force on the date of loss. Nothing suggests the damage happened before the coverage started.

04/21/2025
I checked prior claims and medical history databases. No earlier damage to the vehicle is known, and no earlier injury to the same body area is known.

06/13/2025
The claimant described the same sequence of events in the initial call, the written statement, and the follow-up conversation. The account has stayed consitsent across every contact.

06/23/2025
The treating provider's notes describe a back strain consistent with the force of a side impact. Treatment followed a usual course of physical therapy and tapered off as the patient improved.

06/26/2025
The claimant's account leaves some uncertainty about exactly where in the vehicle they were seated at impact, and I have asked for a follow-up call to clarify this point.

07/05/2025
Based on the photos, witness statements, police report, and treatment records reviewed so far, the claim appears consistent with the reported loss. I am moving the file to the next review stage pending the clarification on seating position.

Recorded Statement

Claim number:	C-1024
Statement of:	Erica Holland
Taken by:	Alison Sweeney
Date:	11/22/2024

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision you were involved in while turning left in Katy, Texas. Do you understand that this call is being recorded?

A: Yes, I understand.

Q: Please state the location where the collision occurred.

A: It was at a busy interseciton in Katy, on a main road with a traffic signal. I was turning left into a shopping center.

Q: What was the signal showing when you began your turn?

A: It was a green arrow for me, I'm fairly sure. The oncoming traffic had a red light.

Q: Did you see the other vehicle before the impact?

A: Not really. I saw headlights when I was partway through the turn, but I didn't have time to react before we hit.

Q: Which part of your vehicle was struck?

A: The front passenger side of my car was hit by the other vehicle's front end.

Q: Were you injured in the collision?

A: Yes. My lower back hurts quite a bit. It feels tight and sore, especially when I sit for a long time or get up from a chair.

Q: Have you sought medical attention?

A: Yes, I went to an urgent care clinic the same day. They examined me, took some X-rays, and told me I had a back strain. They gave me medication and told me to rest and do some gentle stretching.

Q: Have you missed any work because of the injury?

A: I missed two days and I've been working lighter duties since then.

Q: Is there anything you would like to add to your statement?

A: No, I think that covers it. I'm just hoping to get my car repaired and my back feeling better.

Q: Thank you. This concludes the recorded statement.
