Claim Notes

Claim number:	C-1026
Claimant:	Rachel Wallace
Adjuster:	Darin Tyler

9-2-24
Claim opened for a rear-end collision at a signalized intersection. The claimant is not represented by an attorney and reported a wrist injury along with vehicle damage to the rear of the claimant's car.

9-19-24
Reviewed the police report, which lists the claimant's vehicle as struck from behind while stopped. The insured driver is named on the policy and coverage was in force at the time of loss.

9-23-24
Spoke with the other driver, who gave an account matching the claimant's description of the impact. Photos from the scene were received and show damage consistent with a rear impact.

9-30-24
Contacted the two witnesses listed on the report. Both confirmed the collision happened as described, and the responding officer's notes state the claimant was not inside the vehicle when the crash occurred, which needs to be reconciled with the claimant's statement.

10-11-24
Claimant gave a recorded statement describing the collision and the wrist injury. The account was consistent with what was said during the initial phone call.

12-15-24
Obtained an appraisal of the vehicle. The damage pattern lines up with the reported impact, and no prior damage to the rear of the car is known from our records or the appraiser's inspection.

1-17-25
Received the medical records for the wrist fracture. The injury is the type expected from a collision of this force, and no prior injury to that area appears in the records provided.

3-5-25
Treatment followed a typical course, with physical therapy tapering as the claimant's range of motion improved. Nothing in the file suggests a gap in coverage timing or pre-existing damage that would change the assessment.

3-18-25
Reviewed the full file and the discrepancy regarding the claimant's position at impact is noted for follow-up. All other elements of the claim are consistent, and the file is being routed to the supervisor for a coverage and liability decision.

Recorded Statement

Claim number:	C-1026
Statement of:	Rachel Wallace

Date:	8-15-24

Q: Thank you for agreeing to give this recorded statement. Please state where you were when the collision happened.

A: I was riding in the front passenger seat of my sister's car. We were stopped at a light in Pasadena, Texas, on the main road near the shopping center.

Q: Can you describe what happened right before the impact?

A: We had been stopped for a few seconds, maybe longer. Then I felt a hard jolt from behind. The car lurched forward, and I braced myself against the dashboard with my right arm.

Q: Did you see the other vehicle before it hit you?

A: No, I was looking ahead at the light. I only saw it in the side mirror after the impact, a pickup truck with its front end pushed into our back bumper.

Q: Were you wearing your seatbelt?

A: Yes, I had it on the whole time.

Q: Tell me about your injuries.

A: My right wrist hit the dashboard and I felt a sharp pain right away. They took me to the emergency room, and the X-rays showed a fracture. The doctor put me in a cast and said I'd need a follow-up with an orthopedic specialist.

Q: Have you had any other symptoms since the collision?

A: My neck was stiff for a couple of days, and I had some soreness in my shoulder, but the wrist is the worst of it. I can't grip anything well right now.

Q: Did you speak with the driver of the other vehicle at the scene?

A: Briefly. He apologized and said he had been looking at his phone for a moment. Then the police arrived and took our information.

Q: Is there anything else you would like to add to this statement?

A: No, I think that covers it.

Q: Thank you. This concludes the recorded statement.
