Officer's narrative

Officers responded to a rear-end collision in Pasadena, Texas, involving two vehicles. Driver 1 was stopped at a traffic signal when the front of Driver 2's vehicle struck the rear bumper of Driver 1's car. Driver 2 told the responding officer that the brakes did not engage in time, and Driver 2's account matched the statements given by two independent witnesses at the scene. Scene photographs show rear-end damage to Driver 1's vehicle and front-end damage to Driver 2's vehicle, consistent with the impact described. Driver 1 is listed as the named insured on the policy for the vehicle. Passenger reported a wrist injury and was transported for evaluation. Both witnesses stated that Passenger was not inside Driver 1's vehicle at the moment of impact, which conflicts with Passenger's later statement. Officers found no prior damage to either vehicle at the scene. Citations were not issued at this time pending review.
