Description of the accident (claimant's words)

I was backing out of a parking space at a grocery store in Sugar Land, Texas, when my rear bumper struck the side of a car that was rolling slowly through the aisle behind me. The impact was low speed, but it jolted me forward and back against my seat. Within a few minutes I noticed a stiff, aching pain in my lower back, and by the next morning it had settled into a steady strain that made bending and lifting difficult. I have described the events the same way each time I have spoken about them, whether to the other driver, to the store's staff, or to the adjuster. I am the policyholder listed on this auto policy and was driving my own vehicle at the time. I have kept my medical appointments and will provide any records needed to support this claim.
