Description of the accident (claimant's words)

I was driving my own vehicle, which is insured under the policy in my name, when the other car came toward me head-on in a low-speed collision on a Pearland road. I was going slowly and braked as soon as I saw the other car drifting into my lane, but we still made contact. Both cars were drivable afterward, though I felt stiffness and soreness in my neck within an hour. I have described what happened the same way to the responding officer, to the adjuster, and to my doctor, and I have not changed any detail. I am reporting this injury as a neck strain and am following the treatment plan my physician recommended. I am providing photos of both vehicles, the police report number, and my medical notes for your review.
