Claim Notes

Claim number:	C-1029
Claimant:	Brandi Miller
Adjuster:	Valerie Rodriguez

13 Jul 2025
Reported today by the claimant, who is not represented by an attorney, following a rear-end collision at a city intersection. The claimant reports neck and back discomfort and says they were the driver of the stopped vehicle that was struck from behind.

31 Jul 2025
Spoke with the other driver, who confirms the collision happened as the claimant described and says they were following too closely in slow traffic. Took the other driver's insurance details and their statement.

17 Sep 2025
Photos from the scene and the damage on both vehicles line up with the impact described by the claimant. Rear bumper and trunk damage on the claimant's car is consistent with a rear-end impact at low speed.

19 Sep 2025
Requested the police report. The responding officer's notes say the claimant was not inside the vehicle when the collision occurred, which differs from the account given to me so far. Will clarify this with the claimant.

2 Oct 2025
Called the claimant to ask about the discrepancy in the police notes. The claimant gave the same account of the collision as in the first report and said the earlier note was likely mistaken, adding that they got out only after the other car stopped.

5 Oct 2025
Two independent witnesses gave statements that match the other driver's version of the impact. Neither witness could confirm where the claimant was seated at the moment of contact, so the question remains open.

25 Oct 2025
Checked the claimant's vehicle history. No prior damage to the rear of the car is recorded, and nothing suggests the damage predates the policy's effective coverage period. The driver is named on the policy.

3 Nov 2025
The claimant has been seen by a treating provider for a back strain. The injury is plausible for a collision of this type, and the claimant reports no earlier injury to the same area. Treatment has run somewhat longer than is typical for this diagnosis, so I've asked for the treatment notes.

25 Dec 2025
Received the treatment notes and reviewed the medical timeline. Records show consistent complaints from the first visit onward, and the claimant has described the symptoms the same way in every conversation. No prior records for the same body region were found.

15 Feb 2026
Reviewed the full file with the supervisor. The impact, vehicle damage and the other driver's account all support the reported collision. The open item is the officer's note on the claimant's position in the vehicle, which needs to be resolved before a settlement offer is made.

Recorded Statement

Claim number:	C-1029
Statement of:	Brandi Miller
Taken by:	Valerie Rodriguez
Date:	30 Jun 2025

Q: Thanks for taking the time to speak with me today. This recording is for our calim file. Can you state your full name for the record?

A: I'd rather just go by my initials for now, if that's okay.

Q: That's fine. Can you tell me where you were when the collision happened?

A: I was driving through Baytown, Texas, on a weekday afternoon. Traffic had slowed down ahead of a light, so I was already stopped when it happened.

Q: Understood. What happened next?

A: The car behind me didn't stop in time. I felt a hard jolt from the back, and my head snapped forward and then back against the seat.

Q: Were you wearing your seatbelt?

A: Yes, I was.

Q: Did you get out of the vehicle at the scene?

A: I did, but I felt stiff almsot right away. I walked around for a minute and then sat down on the curb because my lower back was tightening up.

Q: Did you seek medical attention?

A: I went to an urgent care clinic later that evening. They examined my back and told me I had a lumbar strain. They gave me a muscle relaxer and told me to rest and avoid heavy lifting.

Q: Have you had any prior problems with your back?

A: Nothing serious. I've had occasional soreness after long days on my feet, but nothing that stopped me from working.

Q: How are you feeling at the moment?

A: Better than the first few days, but I still get a sharp ache when I bend over or sit for a long time. I've been doing gentle stretches as the clinic suggested.

Q: Is there anything else you'd like to add?

A: Only that I want to cooperate fully and get this resolved. I'll send over any follow-up paperwork from the clinic.

Q: Thank you. That cocnludes the statement.
