Bodily Injury Unit

Claim Notes

Claim number:	C-1030
Claimant:	Joe Stephens
Adjuster:	Darin Tyler

10-10-24
Claimant reported being struck while turning left at an intersection and said she felt neck and back pain shortly afterward. The claim was opened and the file assigned for review.

12-7-24
Police report and two independent witnesses confirm the collision happened as described, and the other driver's account matches the claimant's on the sequence of events. Scene photos were requested and received.

12-8-24
Vehicle damage appears largley consistent with the described impact. No prior damage to the vehicle is known, and nothing in the file suggests the damage predates the start of coverage.

1-15-25
Claimant is not represented by an attorney. Confirmed the driver is listed on the policy and that the vehicle is the insured unit on the declarations page.

3-22-25
Claimant was seen by a provider for neck and back strain. The reported injury is plausible for a collision of this type. No prior injury to the same body area is known from available records.

4-16-25
In a follow-up call, claimant described the direction of the impact differently than in the initial report. In the second conversation she also gave a different number of passengers in the car. Noted the changes and asked for clarification in writing.

4-20-25
Police and witnesses both confirm the claimant was in the vehicle at the time of the collision, so presence at the scene is not in question. The discrepancies noted in the follow-up relate to the details of the impact and occupants.

4-26-25
Treatment followed a typical course, with visits tapering as the claimant reported improvement. Medical billing reviewed and found consistent with the treatment notes.

4-27-25
File reviewed. Liability and injury appear plausible, with the open item being the clarification of the impact direction and occupant count from the claimant's changed statements before final evaluation.

Recorded Statement

Claim number:	C-1030
Statement of:	Joe Stephens
Taken by:	Darin Tyler
Date:	9-13-24

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision you were involved in while turning left in Conroe, Texas. Please state your full name for the record.

A: I'd rather just give you the facts of what happened. My name is on the claim form.

Q: That's fine. Can you describe where you were driving and what you were doing when the collision occurred?

A: I was heading toward a shopping center on a main road in the middle of the afternoon. I had my turn signal on and was waiting to turn left across the oncoming lanes.

Q: Were you stopped or moving when you began the turn?

A: I was moving slowly. I checked both ways, saw the other car was a fair distance off, and started through the turn. Then the other vehicle came through the intersection much faster than I expected and struck the passenger side of my car.

Q: Did you have any warning before the impact?

A: Just a split second. I treid to brake, but there wasn't time to avoid it.

Q: Did you feel any injury right after the collision?

A: My neck felt stiff almost immediately, and by that evening my lower back was sore. I didn't think much of it at first, but it's gotten worse over the past few days.

Q: Have you sought medical attention for those symptoms?

A: Yes, I was seen at an urgent care clinic and was told I had a neck and back strain. I've been given exercises and a prescription for pain relief.

Q: Thank you. Is there anything you would like to add to your statement?

A: Only that I've been careful about following the treatment plan and I'm willing to provide my medical records.

Q: Thank you. This concludes the statement.
