### Description of the accident (claimant's words)

I was making a left turn at an intersection in Conroe, Texas, when another vehicle struck the side of my car. I was the policyholder driving my own vehicle at the time. I felt a sharp pain in my neck and lower back right after the collision, and I have been treated for a neck and back strain since then. When I first described the accident, I said the impact came from the front and that only I was in the car. In later conversations I recalled the impact coming from a different side and that a passenger was with me, and I want to correct and clarify those details as best I can now. I am providing this statement in good faith and will supply any further infromation the adjuster needs.
