Claim Notes

Claim number:	C-1032
Claimant:	Brandon Williamson
Adjuster:	Darin Tyler

2025-02-15
Claim opened after the insured reported a sdieswipe that occurred while the other vehicle was changing lanes. The claimant is represented by counsel, and all further contact is being routed through that office.

2025-02-16
Police report obtained. It places the claimant in the vehicle at the scene and records the other driver's account, which matches the insured's description of the lane change.

2025-03-02
Photographs from the scene and statements from two independent witnesses were collected. Both witnesses describe the same sequence of events, and the other driver has confirmed the account without qualification.

2025-06-14
Damage to the claimant's vehicle was inspected. It is mostly confined to the side panels and mirror, which is consistent with the impact described, and no earlier damage to the vehicle is on record.

2025-06-19
Claimant reported a back strain and began treatment through counsel's referral. The injury is consistent in type and force with a side impact of this kind, and no prior injury to the same area appears in our records.

2025-07-11
A neighbor contacted the office saying the vehicle looked damaged a few weeks before the reported loss. This is a secondhand recollection with no supporting photos or records, and it has been noted for follow-up without changing the current assessment.

2025-09-23
Each conversation with the claimant, including the recorded statement, has given the same account of the accident. Treatment has run somewhat longer than is typical for this injury, and the medical file is being reviewed for the reasons.

2025-10-03
The driver is confirmed as a named driver on the policy, and covergae applies. Remaining open items are the medical review and the neighbor's statement, and the file will be updated when counsel responds to the outstanding requests.

Recorded Statement

Claim number:	C-1032
Statement of:	Brandon Williamson

Q: Thanks for taking the time to speak with me today. This recorded statement concerns the sideswipe collision you were involved in while changing lanes in Conroe, Texas. Do you understand that this call is being recorded?

A: Yes, I understand.

Q: Please describe what you were doing right before the collision.

A: I was driving in the right lane on the highway and wanted to move over to the left lane to get ready for my exit. I checked my mirror, saw the lane looked clear, and started to merge.

Q: Did you use your turn signal before you changed lanes?

A: I believe I did. I flipped it on a few seconds before I started moving.

Q: What happened next?

A: As I was partway over, I felt a hard bump on the side of my car. The other vehicle was in the left lane, and it had come up beside me. We scraped along each other for a moment before both of us stopped.

Q: Did you see the other vehicle before the contact?

A: Not clearly. I glanced at the mirror and didn't see anything rihgt next to me, but I might have missed it in my blind spot.

Q: Were you injured in the collision?

A: Yes. My lower back started hurting that same day. It's a dull, tight ache that gets worse when I sit for long periods or bend over. I went to get checked out afterward.

Q: Have you received any treatment since the collision?

A: I've seen a doctor and I'm doing some physical therapy. The doctor said it looks like a back strain.

Q: Is there anything else you'd like to add to your statement?

A: No, I think that covers it. I just want to get my back feeling normal again.

Q: Thank you. This concludes the recorded statement.
