Description of the accident (claimant's words)

I was changing lanes on a busy road in Conroe, Texas, checking my mirror and signaling as I moved over. Another vehicle came alongside in the lane I was entering and its side clipped the rear quarter panel of my car. Both of us pluled onto the shoulder, and I stayed at the scene until the other driver and I had exchanged our information. I have been the named driver on this policy for the entire time it has been in force, and I am submitting this claim under that coverage. Since the colliison I have had a back strain that makes lifting and long periods of sitting painful. I have described what happened the same way each time I have been asked, both at the scene and afterward, and I am willing to provide any further details the adjuster needs.
