Claim Notes

Claim number:	C-1033
Claimant:	Elizabeth Murillo
Adjuster:	Alison Sweeney

06/15/2025
First notice of loss received for a rear-end collision at a signalized intersection involving two vehicles. The insured reports being stopped at a red light when a following vehicle struck the rear bumper. The driver is named on the policy and the vehicle is covered under the current term.

07/25/2025
Contacted the claimant's attorney to confirm representation and request that all further communication be routed through their office. The attorney has provided a letter of representation and asked that no recorded statement be taken directly from the claimant.

08/17/2025
Reveiwed the police report, which places the claimant in the vehicle at the time of impact and records the other driver as the at-fault party. Responding officers noted the vehicle positions and the damage pattern consistent with a rear impact.

09/20/2025
Obtained photographs from the scene and from the body shop. Rear bumper, trunk lid and tail lamp damage is visible and the damage pattern lines up well with the described force of the impact. No prior damage to this area is shown in our records or in the photos.

10/03/2025
Spoke with the other driver, who confirms the collision occurred as described and accepts responsibility for following too closely. The account matches what the insured reported at first notice.

10/18/2025
Two independent witnesses at the intersection gave statements that agree with the insured's account of the sequence of events and the position of both vehicles at impact.

12/01/2025
Received medical records showing a wrist fracture diagnosed at the emergency department on the day of the collision. The injury is consistent with the kind of force expected in this type of crash. Our records contain no prior injury to the same body area.

12/24/2025
Claimant's attorney submitted the treatment chart. Care followed a typical course of immobilization, follow-up imaging and physical therapy, with the frequency of visits tapering as the claimant improved and the provider noted a good recovery.

12/26/2025
The claimant later added a few small details to the account, such as the exact position of a passenger's bag and the timing of a phone call to the police, but the core description of the collision has remained the same across each statement.

01/04/2026
Reviewed the vehicle's service history and prior claims. No earlier damage to the vehicle is recorded, and nohting in the file suggests any of the current damage predates the start of coverage.

01/22/2026
Prepared the repair estimate review. Most of the listed damage is in line with the described impact, and the few items that appear to be unrelated have been flagged for the appraiser to confirm before settlement discussions continue.

01/23/2026
File reviewed by the supervisor. All coverage, liability and injury documentation is in order, and the claim is progressing to the liability evaluation stage with the attorney's office kept informed.

Recorded Statement

Claim number:	C-1033
Statement of:	Elizabeth Murillo
Taken by:	Alison Sweeney
Date:	06/14/2025

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the rear-end collision in League City, Texas. Can you confirm you are the driver of the vehicle involved?

A: Yes, I was driving my own car that day.

Q: Please describe in your own words what happened leading up to the impact.

A: I was stopped at a red light on a main road. The traffic ahead had cleared, and I was just starting to move forward when I felt a hard jolt from behind.

Q: Did you see the other vehicle before the impact?

A: Only in my rearview mirror, for a moment. It didn't look like it was slowing down much.

Q: Were you wearing your seatbelt?

A: Yes, I was.

Q: Did the airbags deploy in your vehicle?

A: No, they didn't. The steering wheel and my arm took most of the force, though.

Q: Where do you feel injuries, and have you received medical treatment?

A: My left wrist is the main problem. I was taken to an urgent care clinic that evening, and they sent me for X-rays. The doctor said the wrist is fractured, and I have a splint and I'm scheduled to see an orthopedic specialist next week. My neck is sore too.

Q: Did you have any pain or sypmtoms before this collision involving that wrist or neck?

A: No, nothing like this. I'd been fine before.

Q: Has anyone else been in contact with you about the accident since it happened?

A: Only the other driver's insurance company, who asked for a statement. I told them I'd speak with you first.

Q: Is there anything you would like to add to your statement?

A: Just that I want my car repaired and my medical bills taken care of. I'm willing to provide the clinic records.

Q: Thank you. This concludes the recorded statement.
