Claim Notes

Claim number:	C-1034
Claimant:	Paul Oconnor
Adjuster:	Jerry Hanson

2023-11-12
The insured reported a hit-while-turning-left collision at an intersectoin and the claimant's vehicle was struck on its driver side. The claimant has retained counsel, and all further contact is being routed through the attorney's office.

2024-01-09
The police report and two independent witnesses place the claimant inside the vehicle at the time of impact, and the other driver's account matches the insured's description of the turn. Photos taken at the scene are consistent with the reported sequence.

2024-02-07
Initial damage appraisal shows the impact damage is largely in line with the described collision. No prior damage to the vehicle has come to light in our records or in the photos reviewed.

2024-02-22
The claimant reported a wrist fracture from the collision, which is a plausible injury for a force of this kind. The attorney submitted the initial medical summary and asked that the claim be handled on the bodily injury track.

2024-03-08
The claimant gave the same account of the collision in the recorded statement and again in a follow-up call with the attorney present. Details of the sequence did not shift between conversations.

2024-03-09
The driver is listed on the policy and the coverage was in force on the date of loss. Notihng in the underwriting file suggests the vehicle damage predates the coverage period.

2024-03-11
Records show no earlier injury to the wrist or nearby body areas, based on the prior medical history the attorney provided and our database search.

2024-03-28
Treatment has increased sharply, with visits now happening almost every day and several times the typical volume for a wrist fracture of this type. New body areas were added to the treatment plan several weeks after the crash.

2024-04-10
The treating provider's notes list additional complaints in areas not mentioned in the first report. We have requested the complete records and an independent medical review to assess how these relate to the collision.

2024-04-17
The adjuster discussed the escalating treatment pattern with the attorney, who said the claimant's care is following the physician's recommendations. We are awaiting the independent review before setting a reserve.

2024-05-23
Current status is open pending the medical review. The liability picture remains clear, with the other driver accepting responsibility for the turning-left collision.

Recorded Statement

Claim number:	C-1034
Statement of:	Paul Oconnor
Taken by:	Jerry Hanson
Date:	2023-11-04

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision you reported in Sugar Land, Texas. Please state your full name for the record.

A: I'd rather just give my details as needed. Let's go with the accident.

Q: That's fine. Can you describe where you were driving and what you were doing when the collision happened?

A: I was driving through a major intersection and needed to turn left. I had my signal on and was waiting for a gap in oncoming traffic. The light had turned yellow, so I went when I thought it was clear.

Q: When you began your turn, what did you see in the oncoming lanes?

A: There was a vehicle coming toward me, but it looked farther away than it actually was. I thought I had time. Then it hit the front driver side of my car.

Q: Did you notice the other vehicle's headlights or signal before you started moving?

A: Not that I remember. It was a busy afternoon and there was a lot of glare off the pavement.

Q: After the impact, what happened to you physically?

A: My left wrist hit the stereing wheel and the door frame. I felt immediate pain and couldn't grip anything. An ambulance took me to the hospital, where they confirmed a fracture in my wrist. I've been wearing a splint since and I have a follow-up appointment with a hand specialist next week.

Q: Thank you. Were there any passengers in your vehicle or any witnesses you are aware of?

A: No passengers. A man in a parked car across the road came over to check on me, but I didn't get his information.

Q: Is there anything you would like to add to your statement?

A: Only that I was trying to be careful. I just want my car repaired and my medical bills taken care of.

Q: Thank you. That concludes this statement.
