Claim Notes

Claim number:	C-1037
Claimant:	Thomas Anderson
Adjuster:	Valerie Rodriguez

6-23-24
Claim opened after the insured reported a low-speed collision in a parking lot with another vehicle backing out of a space. The claimant was identified as the driver of the other vehicle and is reprseented by counsel, so all contact will go through the attorney's office. Verified that the driver is named on the policy.

8-16-24
Obtained the statements from the claimant's attorney and reviewed the scene photos submitted with the first notice of loss. The damage visible on both vehicles lines up with the impact described, and the rear bumper deformation is consisetnt with the reported speed.

9-4-24
Spoke with the two witnesses listed on the report. Both independently described the same sequence of movement and contact, and neither had any connection to either party.

9-17-24
Took the other driver's recorded statement. Their account of the collision matches the witnesses and the photos in every material respect.

10-10-24
Received the medical records from the claimant's treating provider. The reported back strain fits the kind and force of the impact. Treatment followed a usual course, with physical therapy tapering off as the patient improved. The records also note a small strain in the same area several years ago that healed fully.

11-22-24
Spoke with the claimant through counsel. The account given was the same as in the first notice of loss and in every later conversation. It is not yet fully clear from the file where in the vehicle the claimant was seated at the moment of impact, so I have requested a seating description and a follow-up interview.

11-29-24
Checked the vehicle history and prior claim records. No earlier damage to the vehicle is on file. A neighbor who was contacted informally believes the car had been damaged seevral weeks before the stated loss date, but that remains an unverified recollection and has not been confirmed by any document or other witness.

12-20-24
Reviewed the damage estimate against the impact photos and the reported point of contact. The repair scope matches the described impact, and no additional areas of damage were identified during reinspection.

12-27-24
Summarized the file for supervisor review. Liability and the accident itself are supported by witnesses, photos, and the other driver's account. Outstanding items are the seating position question and the neighbor's recollection about prior damage, which will be followed up with counsel before any settlement evaluation.

Recorded Statement

Claim number:	C-1037
Statement of:	Thomas Anderson
Taken by:	Valerie Rodriguez
Date:	6-20-24

Q: Thanks for taking the time to speak with me today. This recorded statement concerns the parking lot incident in Pearland, Texas. Please state your full name for the record.

A: I'd rather just keep it to the basics, but sure. It's the claimant here, the one who was driving the car.

Q: Understood. Can you walk me through what happened when the collision occurred?

A: I was pulling into a space near the store entrance. Another vehicle was backing out from the row arcoss from me, and I didn't see it coming until it was already on my bumper. I hit my brakes, but there wasn't much room.

Q: How fast were you going when you were pulling in?

A: Walking speed, maybe a little faster. It's a parking lot, so nobody's really going fast.

Q: Did you exchange information with the other driver?

A: Yeah, we swapped insurance details and took a few photos of the bumpers.

Q: Did you feel any injury at the scene?

A: Not right away. I was sore the next morning, mostly in my lower back. The pain got worse over a couple of days, so I went to get checked out.

Q: What was the diagnosis from your doctor?

A: They said it was a back strain. I've been doing stretching exercises and taking it easy. I still get stiff when I sit too long.

Q: Are you currently under any treatment?

A: I'm seeing a physical therapist twice a week. My doctor wants me to keep that up for a while.

Q: Have you had any prior problems with your lower back?

A: Nothing serious. I had some soreness years ago after moving furniture, but it went away on its own.

Q: Is there anything else you'd like to add to your statement?

A: Just that I'm trying to get back to normal. I'd appreciate it if this could move along.

Q: Thank you. That concludes the statement.
