### Description of the accident (claimant's words)

I was making a left turn in League City, Texas, when another vehicle struck the side of my car. I had been waiting for a gap in oncoming traffic and believed the path was clear when the impact happened. The collision threw me against the driver's side door, and I felt a sharp pain in my knee right away. I stayed at the scene until the police arrived and gave them my statement. When I later recalled the event, I added a few small details, such as the exact position of the signal light, but the core of my account never changed. I am the policyholder named on this policy, and I am filing this claim for damage to my vehicle and for the knee injury I sustained.
