Reported injury:	whiplash

Description of the accident (claimant's words)

I was changing lanes on a multi-lane road in Conroe, Texas, when another vehicle moved into the space beside me and its side struck my car. I had checked my mirror and signaled before moving over, so I did not expect the contact. Both cars pulled to the shoulder, and I stayed where I was until the other driver and I could speak. I have been the named driver on this policy for the entire time I have held it, and I am the person who was behind the wheel at the momnet of impact. Since the collision I have described the sqeuence the same way to the officer at the scene, to the adjuster, and to my doctor. The next morning my neck was stiff and the pain ran into my shoulders, and I was later diagnosed with whiplash. I am providing this account so the claim can be reviewed.
