Harbor Point Mutual Auto Insurance

Bodily Injury Unit

Claim Notes

Claim number:	C-1041
Claimant:	Samuel Carter
Adjuster:	Alison Sweeney

28 Feb 2024
First notice of loss received for a low-speed collision in a parking lot. The insured's vehicle was struck while stationary, and the claimant reports a knee injury and is represented by counsel, so all contact will go through the attorney's office.

15 Mar 2024
Police report and two independent witnesses confirm the claimant was seated in the vehicle at the time of the impact. The other driver's statement matches the account given to us, and scene photos are in the file.

1 Apr 2024
Reviewed the vehicle damage photos. The damage is mostly consistent with the impact described, and the estimate has been sent for review. No earlier damage to the vehicle appears in our records or in the shop history provided. The driver is listed on the policy, and nothing suggests the damage predates the coverage start.

2 Apr 2024
Attorney provided the medical summary. The knee injury fits the kind and force of the crash, and no prior injury to the same area is known. Teratment followed a usual course and tapered off as the patient improved.

12 May 2024
Recorded a follow-up statement from the claimant. Some small details were added since the first report, but the core account of how the collision happened has stayed the same and lines up with the witnesses and photos.

7 Jun 2024
Medical treatment has tapered and the file is nearing a settlement evaluation. All parties have confirmed the accident occurred as described, and the claim is being routed to the bodily injury and property damage teams for final review.

Recorded Statement

Claim number:	C-1041
Statement of:	Samuel Carter
Taken by:	Alison Sweeney
Date:	29 Oct 2023

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather not give my full name on a recording, but you can note that I'm the driver of the vehicle involved.

Q: That's fine. Can you tell me where the collision happened?

A: It was in a shopping center parking lot in Sugar Land, Texas. I was pulling out of a space near the main entrance.

Q: What were you doing right before the impact?

A: I was backing out slowly. I had checked my mirror, and I didn't see anything coming. Then a car came around the end of the row fast and hit the rear corner of my vehicle.

Q: Was your vehicle moving at the time?

A: Yes, only a few miles an hour. The impact was enough to jerk me forward and then back against the seat.

Q: Did you notice any injuries right away?

A: Not at first. My left knee hit the dashboard area, and by the time I got out of the car it was stiff and sore. Over the next day it swelled up qutie a bit.

Q: Have you seen a doctor about the knee?

A: Yes, I went to an urgent care clinic the following morning. They took X-rays and told me to follow up with an orthopedic specialist. I have an appointment scheduled.

Q: Were you wearing your seatbelt?

A: Yes, I was. The belt locked up when the impact happened.

Q: Did the other driver give you any information at the scene?

A: They gave me their insurance card and said they were sorry. A passerby also took a photo of both cars, and I have a copy of it on my phone.

Q: Is there anythnig else you'd like to add?

A: Only that I'm still having trouble bending the knee and walking up stairs. I'll send over my mdeical records once I get them.

Q: Thank you. This concludes the statement.
