Claim Notes

Claim number:	C-1042
Claimant:	James Hogan
Adjuster:	Valerie Rodriguez

5-8-24
Claim received for a side impact at an intersection, with the claimant reporting a neck strain and retaining cuonsel before any statement was taken.

5-26-24
Reviewed the police report, which places the claimant's vehicle in the intersection at the time of impact and confirms the claimant was a passenger in that vehicle.

5-29-24
Driver is named on the policy and the policy was in force on the date of loss; nothing in the file suggests the damage predates coverage.

6-12-24
Obtained photos from the scene and statements from two independent witnesses, all of which confirm the collision happened as the claimant and the other driver described.

6-18-24
Inspected the claimant's vehicle. The driver-side door and quarter panel show clear impact damage consistent with a side impact, though a few older scratches elsewhere on the body may predate this loss.

7-3-24
Medical records received show a neck strain diagnosis, and the mechanism and force of the collision appear consistent with that type of injury.

8-29-24
No prior injury to the neck or upper back appears in the records we obtained, and the claimant denies any earlier complaints to that area.

9-9-24
Treatment followed a typical course of physical therapy and medication, with visit frequency tapering as the claimant reported steady improvement.

9-27-24
Counsel forwarded a demand package. Reviewing whether all of the claimed vehicle damage and treatment can be attributed to this impact, as the scope of some repairs is not yet clear.

11-2-24
Claimant provided a follow-up recorded statement adding a few small details about the moments before and after impact; the core account remains the same as the initial report.

11-17-24
Compared the updated statement against the police report, witness accounts and photos, and found the sequence of events consistent across all sources.

11-24-24
Reserve reviewed and file referred for final evaluation of the injury and property components, with the open question on damage scope noted for the handling adjuster.

Recorded Statement

Claim number:	C-1042
Statement of:	James Hogan
Taken by:	Valerie Rodriguez
Date:	4-29-24

Q: Thanks for taking the time to speak with me today. This call is being recorded for the claim file. Can you please state your full name for the record?

A: I'd rather just go by my first name for now, if that's okay.

Q: That's fine. Can you describe where you were when the collision happened?

A: I was driving through an intersection in Conroe, heading straight through on a green light as far as I could tell.

Q: What happened next?

A: A vehicle coming from my right side pulled out into the intersection. I hit my brakes, but it was too late. Their front end caught the driver's side of my car.

Q: Were you able to see the other vehicle before impact?

A: Only for a second. It came out from behind a parked van, so I didn't have much time to react.

Q: Did you have any contact with the other driver afterward?

A: We exchanged information. They seemed shaken up, and they said they didn't see my car utnil the last moment.

Q: How are you feeling physically since the collision?

A: My neck is pretty stiff and sore. I felt it the next morning, and turning my head to check my blind spot hurts. I've been using a heating pad and taking over-the-counter pain relievers.

Q: Have you sought medical attention?

A: I went to an urgent care clinic the day after. They diagnosed a neck strain and told me to rest and follow up with my primary doctor if it doesn't improve.

Q: Is there anything else you'd like to add about the accident?

A: Only that I'm cooperating fully and I'll send over any paperwork you need. Thank you.

Q: Thank you. This concludes the recorded statement.
