Claim Notes

Claim number:	C-1043
Claimant:	Keith Mcmahon
Adjuster:	Alison Sweeney

01/29/2025
Claim opened after the policyholder reported a collision at an intersection while turning left across oncoming traffic. The claimant, who is not represenetd by an attorney, gave a first account by phone and said they felt neck pain shortly afterward.

02/06/2025
Reviewed the driver's information and confirmed that the driver is named on the polciy and the coverage was active at the time of loss. Nothing in the file suggests the damage happened before the coverage started.

02/10/2025
Photos submitted by the claimant show damage to the front of the vehicle that is consistent with the described impact. No earlier damage to the vehicle is known from prior claims or inspection records.

03/11/2025
Spoke with the claimant about seating position at the time of impact. The claimant's recollection on this point is not fully clear, and it is not certain whether they were in the driver's seat or the front passenger seat during the collision.

04/28/2025
Requested medical records. The claimant reports whiplash-type symptoms, and the reported injury is plausible for a crash of this type. No earlier injury to the same body area is known from the records available so far.

05/05/2025
Reviewed the photos again. They confirm some details of the scene and the vehicle position, but no independent witnesses have come forward to describe the collision.

06/14/2025
The claimant contacted the office to add a few small details about traffic conditions and the timing of the turn. The core account has stayed the same across each conversation.

08/04/2025
Treatment followed a usual course, with physical therapy and periodic check-ins. Symptoms have improved steadily, and the treatment has tapered off as expected for this type of injury.

08/14/2025
Confirmed with the treating provider that the latest visit notes show reduced neck pain and improved range of motion. No new complaints were recorded at the most recent appointment.

08/16/2025
Based on the current file, the claim appears consistent with the reported loss, the vehicle damage, and the injury course. Remaining open items are the final treatment summary and the claimant's signed statement.

Recorded Statement

Claim number:	C-1043
Statement of:	Keith Mcmahon
Taken by:	Alison Sweeney
Date:	01/11/2025

Q: Thank you for agreeing to give this recorded statement. For the record, can you confirm you are the driver of the vehicle involved in the collision in Pasadena, Texas?

A: Yes, that's right. I was driving my own car.

Q: Please walk me through what happened, starting from when you approached the intersection.

A: I was heading down the main road and wanted to turn left into a shopping center. I had my turn signal on and was waiting for a gap in oncoming traffic. When it looked clear, I started my turn, and then a vehicle coming the other way hit the front passenger side of my car.

Q: Did you see the other vehicle before you started to turn?

A: I saw hedalights further back, but it seemed far enough away. I misjudged how fast it was moving, and that's on me, I suppose.

Q: What was the speed of your vehicle at the time of impact, as best you can estimate?

A: I was going slowly, maybe ten or fifteen miles an hour, since I was already in the turn.

Q: Did you have any injuries from the collision?

A: Yes. My neck snapped forward and back pretty hard. I've had stiffness and pain in my neck and upper back since then, and I've had headaches most days.

Q: Have you sought medical treatment?

A: Yes, I was taken to an urgent care clinic the same day, and I've been seeing a physical therapist twice a week since then. My doctor has me on muscle relaxers.

Q: Is there anything else you'd like to add to your statement?

A: Only that I've been unable to work my full schedule since the crash, and I want to make sure my medical bills are covered.

Q: Thank you. This concludes the recorded statement.
