Description of the accident (claimant's words)

I was making a left turn at an intersection in Pasadena, Texas, when another vehicle struck the side of my car. I had been waiting for a gap in oncoming traffic and was moving slowly when the impact happened. Right after the collision I felt a sharp pain in my neck and upper back, and by the next morning the stiffness had spread into my shoulders. I was checked at a medical facility and was diagnosed with whiplash. Looking back on what I have described, I have since remembered a few small details, such as the position of the other car's headlights, but the core account of how the collision happened has not changed. I am the named dirver on the policy and I am submitting this statement for the claim.
