Claim Notes

Claim number:	C-1045
Claimant:	Lisa Pierce
Adjuster:	Darin Tyler

4-13-24

Claim reported by the insured after a rear-end collision at a signalized intersection. The insured reports neck and shoulder pain and says the claimant's vehicle was stopped in front of them when the impact occurred. The driver is confirmed as a named driver on the policy.

5-2-24

Claimant is now represented by counsel, who has asked that all contact go through their office. A letter of representation has been received and logged. Medical authorization requests have been sent.

5-17-24

Stateemnts from two witnesses, scene photographs and the other driver's account all agree that the collision happened as the insured described. Initial damage estimate reviewed; the damage is mostly consistent with the reported impact speed and direction.

8-21-24

Claimant's recorded statement was taken today. Some details were added compared with the first report, but the core account has not changed. It is still not fully clear from the statement or the photos where in the vehicle the claimant was seated at impact.

9-6-24

A neighbor has told us they believe the vehicle had body damage several weeks before the claimed date. We have no independent record of earlier damage to the vehicle, and no prior calims on it are on file. The neighbor's comment has been noted for follow-up.

10-25-24

Medical records show a shoulder injury that is plausible for a collision of this type. Treatment followed a usual course and tapered off as the claimant improved. No earlier injury to the same body area is known from the records received so far.

Recorded Statement

Claim number:	C-1045
Statement of:	Lisa Pierce
Taken by:	Darin Tyler
Date:	4-6-24

Q: Thank you for taking the time to sepak with me today. This recorded statement concerns the rear-end collision you reported in Houston, Texas. Please state your full name for the record.

A: I'd rather just give the facts of what happened, if that's okay. I'm still sore and I'm not sure I can keep track of every detail.

Q: That's understandable. Can you tell me where you were driivng and what you were doing when the collision occurred?

A: I was heading east on a main road, stopped at a light near a shopping center. Traffic was moving slowly, and I had come to a complete stop behind a silver sedan.

Q: Did you have any warning before the impact?

A: Not really. I saw the mirror fill with headlights for a split second and then there was a hard jolt from behind. My head snapped forward and then back against the headrest.

Q: Did you notice whether the other driver was uisng a phone or seemed distracted?

A: I didn't see him before it happened. When I got out to look at the bumpers, he was on his phone, but I can't say whether he was on it while driving.

Q: Did you seek medical attention after the collision?

A: Yes. My shoulder started aching within an hour, and by evening I could barely lift my arm above my chest. I went to an urgent care clinic the next morning and they referred me for imaging.

Q: Have you had any prior injuries to that shoulder or neck?

A: I had some stiffness a few years ago after lifting something heavy, but it resolved with a few weeks of rest. Nothing that stopped me from working.

Q: Thank you. Is there anything else you would like to add to your statement?

A: Only that I'm still having trouble sleeping on that side, and I'd like to be kept updated on the claim.

Q: Understood. This concludes the recorded statement. Thank you.
