Description of the accident (claimant's words)

I was stopped at a red light on a busy Houston street when the car behind me struck the rear of my vehicle. The impact was hard enough to jolt me forward and back against the seat. Right away I felt a sharp pain in my rihgt shoulder, and I have been dealing with stiffness and limited movement since. I am the policyholder listed on this policy, and I was driving my own vehicle at the time. When I went over what happened again afterward, I remembered a few more small details, such as the traffic and the other driver's position, but the core of my account has not changed from what I first reported. I have kept my medical notes and photos of the damage, and I am willing to provide them for review.
